SAFETY CAP RETAINER

THE SAFETY CAP RETAINER IS A SIMPLE SOLUTION TO LOOSE SAFETY CAPS ON CONSTRUCTION SITES, ALLOWING YOU TO REUSE SAFETY CAPS OVER AND OVER EVEN AFTER THE PLASTIC FINS BECOME WORN.

THE PROBLEM

SAFETY CAPS ARE PRONE TO FALLING OFF DUE TO THE INTERNAL FINS FAILING, AND REQUIRE EXTRA MEASURES LIKE REBAR TIE WIRE TO KEEP THEM IN PLACE. THIS METHOD IS TIME CONSUMING AND EXPENSIVE.

THE SOLUTION

SAFETY CAP RETAINERS KEEP SAFETY CAPS SNUGGLY FIT TO REBAR AND T-POSTS

SEE REVERSE SIDE FOR DETAILS →

INSTALLATION IS SIMPLE!

INSERT SAFETY CAP RETAINER INTO SAFETY CAP WITH "X" PATTERN FACING OUT

PLACE SAFETY CAP WITH SCR INSTALLED OVER ENDS OF REBAR OR T-POST AS USUAL

COMPATIBILITY

"X" SHAPE PERFORATION MAKES THE SAFETY CAP RETAINER COMPATIBLE WITH REBAR SIZES #3-#8 AS WELL AS T-POSTS
